

3RD EDITION

Ceramic Implants Master Beginner

Lisbon ESCI Training Center

Center for advanced studies in Ceramic Based Implantology

Overview

The 2nd edition of the Master Beginner course in the Ceramic-based implantology field is set for those who want to start placing ceramic implants in the clinic and don't know how to start.

The participant will learn the state of the art on evidence based ceramic implantology and the A-to-Z clinical guidelines. It's a Blended Course composed by 15 Online Lectures and 3 Clinical Chapters (On-site).

It will be given the opportunity to learn clinical guidelines, indications, and the opportunity to apply acquired techniques, in a Hands-On and clinical applications in real patients.

After completion they will have a certificate of Official Training in Ceramic Implantology by ESCI (European Society for Ceramic Implantology).

In a Glimpse

▪ **15 Online Lessons * 3 Clinical Modules * Hands-On Procedures * Industry Continuing Education (5 Full Days) * Clinical Expertise (Live Patients)**

▪ **When:**

1st Clinical Module - 27th & 28th February 2025

2nd Clinical Module - 10th & 11th April 2025

3rd Clinical Module - 17th & 18th July 2025

▪ **Days per clinical Module: 2**

▪ **Hands-on:** Yes (1st Clinical Module)

▪ **Live Patients:** Yes (2nd and 3rd Clinical Module)

▪ **Do I Place implants?** Yes (2nd Clinical Module)

▪ **Do I Restore implants?** Yes (3rd Clinical Module)

▪ **Where:** Lisbon Portugal ESCI training Center
(Avenida da Liberdade 220, 2nd Floor)

▪ **Aim:** Dentists with Implantology experience

▪ **Language:** English/Spanish or Portuguese

▪ **Number of Accepted People:** 6 people

▪ **Sponsor:** Academy / Straumann / IADLisbon

▪ **Director:** Prof. André Chen

▪ **Fee:**

Course Fee - 5200€ + IVA* (payments divided per module: 1665€ + tax)

▪ **Invited Guests: IAD Lisbon Team and more**

Mariana Peralta (Lab. Technician - Digital Tools for Production on Ceramic Implants;

Dra. Elena Cervino (Ortho e Ceramic Implants Combination);

Dr. João Afonso (Lit review and state of the Art science);

Dr. João Borges (Prosthodontics and Clinical Guidelines);

Dra. Berta Braga (Prosthodontics team)

Pedro Roberto (Oral Hygienist)

Industry – KOL selected by Implant Companies

▪ **Digital Tools Used:** 3Shape Trios, Codiagnostix, Itero, Romexis, Modjaw 4D, Cares

▪ **Official Hotel Partner:** www.inspirastamarta.com

▪ **Official Travel Partner:** Top Atlantico

▪ **Contact:** pv@IADLisbon.com

▪ **How to apply:** send us your CV or Resume + payment of 10% to reserve your spot. If by any chance you are not eligible we will return this deposit.

▪ **Number of accepted people:** 10

* Please send us email to know more about payment options.

Blended Program

Online Course

One online course with 15 modules on ceramic based implantology from A to Z Online Course Contents:

1. Overview of ceramic based implantology and the ESCI Lisbon Training Center mission of statement
2. Implant Companies and Ceramic Implants an overview
3. Biology, Biochemistry and Ceramics
4. Bioengineering in Ceramics
5. Macrogeometry of ceramic implantology development
6. Surface technology of ceramic implants
7. Classical Surgical procedures in Ceramic Implantology
8. Digital Ceramic Based Implantology
9. Provisionalization in ceramic based Implantology
10. Screw Retained VS Cement retained in Ceramic Implantology
11. Lab Technician Techniques in ceramic based implantology CAD-CAM, and 3D printing
12. Final Rehabilitation Techniques in Ceramic Implantology
13. Clinical Outcomes of Ceramic Based implantology
14. Long term Maintenance protocols
15. The future of ceramic based implantology

Clinical Modules

1. 1st Module (27th & 28th February 2025)

Day 1

Theoretical Treatment Plan and Surgical Ceramic Implantology

- Basic Ceramic Concepts Revisited (from the online lectures)
- Ceramic Implant placement Techniques
- Digital Applications CBCT, IOS, 3D and 4D

Hands On Patient Models

- Clinical Scenario Simulation ceramic implants

Day 2

Clinical Case situations

- Immediate, Early, Delayed Implant placement in ceramic implant dentistry

Surgical Procedures

- Step by step Implant placement

2. 2nd Module (10th & 11th April 2025)

Day 1

Theoretical Implant Placement Lecture

- Surgical Seminar
- Surgical Techniques

Hands On Patient Models

- Clinical Scenario
- Treatment Plan on the Live Surgeries

Day 2 (at clinical floor)

Clinical Case situations

Surgical Procedures (Live Patients)

3. 3rd Module (17th & 18th July 2025)

Day 1 (at clinical floor)

Theoretical Implant Placement Lecture

- Prosthodontic Procedures
- Lab Techniques

Hands On Patient

- IOS Scanner
- Prosthodontic Procedures Plan (Live Patients)

Day 2 (at clinical floor)

Clinical Case situations

Prosthodontic Procedures Crown and Bridge Placement

Program Display

Online Preliminary	Theoretical Modules on Ceramic based Implantology
1st Module (Presential)	Chapter 1 - Treatment Plan Ceramic Implants - Hands on phantom models
Online Program	Theoretical Modules on Surgical procedures with ceramic implants
2nd Module (Presential)	Chapter 2 - Surgical Procedures Ceramic implant placement in patients
Online Program	Theoretical Modules on Prosthodontic and Lab techniques procedures with ceramic implants
3rd Module (Presential)	Chapter 3 - Prosthodontic and Lab technicians procedures Prosthodontic procedures in patients
Companies One Day	5 full days with industry

At the end of the course the candidate will obtain knowledge and education on:

- The State of the art of ceramic based implantology
- Evidence based status and literature update
- Clinical Methodologies using ceramic implants
- Biomechanical considerations
- Biological understanding of the technique
- Surgical Skills
- Prosthodontic Skills
- Lab Technicians understanding and communication
- Maintenance and long-term stability
- To successfully understand the rationale in placing a ceramic implant

ESCI Lisbon Training Center will provide:

Handouts Lectures and Literature

Lunch

Closing ceremony and Cocktail

Coffee breaks

Diploma of completion

Candidate Responsible for:

Flight/ or other travel arrangements

Hotel Booking (ESCI Portugal will facilitate a range of hotels)
